TRAINING

Contribute for Web Professionals

Duration: 1 day

Prerequisites

Delegates should understand the basic concepts of webpage design and management

This Contribute training course is the easiest way for anyone to update, add, and publish web content in minutes with no HTML training or experience required.

Objectives

After this Contribute training course, delegates will be able to:

- Update website content quickly and easily
- Control your website's style, layout, permissions, and code.

Course Content

Technology Overview

- Separating website design and maintenance from ongoing updates to content
- Levels of control: templates, library items, CSS or HTML options and text-only editing
- Using Contribute with Dreamweaver, FrontPage, Homesite, HotMetal Pro, GoLive, Notepad and any other HTML editing software

Understanding the Contributors Role

- What Contributors can do: browse to choose a page, edit content, then publish
- Simple editing interface for updating content
- Contributor passwords and access levels
- Preview and review options: requesting an email reply to authorise changes

Maintaining site integrity

- Controlling your website's style and layout
- Managing access and site permissions
- Maintaining design standards, website functionality and code integrity

Using Contribute with Dreamweaver

- Using the free Dreamweaver update to administer Contribute sites from within Dreamweaver
