TRAINING

Advanced Flash

Duration: 2 days

Prerequisites

Completion of
Introduction to Flash, or
equivalent knowledge

This two-day instructor-led course is intended for delegates who have used Flash and have the equivalent experience to someone who has completed the Introduction to Flash course.

This course is intended for intermediate web developers using Flash

Objectives

After this training course, delegates will:

- Incorporate scripting ideas into Flash Movies
- Develop a broad understanding of the interactive possibilities
- Know how to use Action Scripting language
- Liaise more effectively with specialist programmers
- Use the course as a platform for further development in Flash programming

Course Content

Manipulation of numbers

- Strings and boolean variables
- Using data input and output.

Passwords

- Testing of conditions by creating a password testing program

Control of graphics

- Numerically
- With the cursor

Movie interaction

- Altering movie behaviour using scripting
- Creating an interactive game
- Animated graphics
- Game creation

Software controls

- Movie clip duplication
