TRAINING

WordPress Advanced: Custom Themes

Duration: 1 day

Price: £295 + vat

Prerequisites

Delegates must be comfortable in the use of HTML and CSS

Familiarity with PHP is not essential, but an understanding of how it works is useful

This 1-day Advanced WordPress training course provides a hands-on guide to creating a custom WordPress theme to make it look exactly how you want. Learn about WordPress Themes, Template files and creating custom menus.

This is a workshop style Advanced WordPress course – delegates who want to integrate their WordPress blog in to a website are invited to bring their own HTML template and stylesheet as a starting point. Example templates will also be provided.

Objectives

After this WordPress training course, delegates will be able to:

- Customise an existing WordPress Theme to look like their design.
- Create new templates for Pages or Posts
- Add custom menus to their Theme.

Course Content

Anatomy of a Theme
