TRAINING

Cascading Style Sheets (CSS)

Duration: 1 day

Price: £270 + vat

Prerequisites

Have attended the Introduction to HTML course or have similar experience

Testimonials

"I was very impressed by the one day CSS course. I didn't think that so much information could be packed into just the one day, plus the tutor notes and exercises will allow me to continue practicing in my own time."

**Josh Hayes - Niton
Equipment Ltd**

This CSS training course will introduce users to the key principles of CSS and how it can be used to format and design web pages.

Hands-on examples are given during the course so that the delegate will be able to understand CSS and create stylesheets for their own web or XML projects

Objectives

After this CSS training course, delegates will:

- Know how to create Style sheets to help manage XML projects
- Understand CSS Rules and how they work
- Be able to use CSS to position objects
- Understand how validating CSS works

Course Content

Topic Header
