## CSS3

**Duration:** 1 day  
**Price:** £325 + vat

### Prerequisites

To get the most out of the CSS3 course, you should be familiar with HTML & CSS and have used JavaScript (although not necessarily have programmed with it)

We strongly recommend booking this workshop in conjunction with our HTML5 Training course

This CSS3 Training Course provides an overview of CSS3, including current and future browser support. Practical exercises and examples show you how to implement exciting new features which are supported in at least one browser.

### Objectives

After this CSS3 training course, delegates will:

- An understanding of the CSS3 specification
- Knowledge of current browser support for CSS3
- Practical knowledge of how to implement new CSS3 features
- Providing alternatives for unsupported features in various browsers

### Course Content

#### Introduction

- Overview of the CSS3 specification
- CSS Profiles
- The document tree

#### Selectors

- New CSS3 selectors

#### Borders

- Rounded corners
- Drop shadows
- Gradient borders
- Using images for borders

#### Backgrounds

- Resizing backgrounds
- Multiple background images on one element

#### Text effects

- Adding shadows to text

#### Colours and Opacity

- RGBA and HSL values and alpha channel opacity
- Setting opacity

#### User-interface

- Box-sizing
