## Dreamweaver

**Duration:** 2 days  
**Price:** £445 + vat

### Prerequisites

We recommend that all delegates familiarise themselves with the Dreamweaver interface before attending

### Testimonials

*"A very good introduction to Dreamweaver & how it works. Covered all I wanted to know about HTML language and also allowed me to understand how style sheets function."*

**Gemma Shaw - ITW Limited**

This Dreamweaver training course provides a practical introduction to using Dreamweaver efficiently to manage web sites and create pages which conform to current web standards.

You will learn to use the diverse functionality of Dreamweaver to streamline your work process and create accessible, standards-compliant pages.

### Objectives

After this Dreamweaver training course, delegates will:

- Understand how to plan a website
- Be able to create a professional looking website
- Know how to edit existing web pages
- Be able to publish a site onto the web
- Understand how to manage a website
