Six Sigma for Champions and Executives

Duration: 2 days

Prerequisites

This course is recommended for executives and senior managers whose organisation is either considering implementing Lean Six Sigma and they want to know more, or implementation has started and they want to better understand their role as Leaders and Six Sigma Project Champions

This Six Sigma for Champions and Executives training course provides a comprehensive overview of how a Six Sigma management system and philosophy can permeate and transform all aspects of an organisation.

Six Sigma is much more than a set of metric-based problem solving and process improvement tools. Executives and Project Champions play a critical role in establishing and maintaining a Lean Six Sigma Management System to ensure delivery of sustainable breakthrough results.

Executives and Champions need to understand the key concepts and methods of Lean Six Sigma. Equally importantly they need to understand their critical role in aligning, mobilising and managing all elements of the organisation to implement a Six Sigma Management System.

It is when Lean Six Sigma is implemented as a Management System that organisations see the greatest impact.

Objectives

After this Six Sigma for Champions and Executives training course, delegates will understand:

- The key concepts and methodologies of Lean Six Sigma.
- The key elements of a Lean Six Sigma Management System
- The challenges and benefits of implementing a Lean Six Sigma Management System
- How to align the business's strategic objectives and Lean Six Sigma initiatives.
- Their role as Six Sigma Champions and Leaders

Course Content

- Lean Six Sigma Introduction
- Understanding Variability
- Challenges and Benefits
- Define, Measure, Analyse, Improve & Control (DMAIC) improvement model
- Project Leader and team selection
- Role of Champions
- Toll gate reviews
- Implementation Road map
- Developing a Six Sigma Strategy and Change Management Plan
- Lean Six Sigma Management System
