## Adobe Photoshop Lightroom

**Duration:** 2 days

### Prerequisites

Delegates should have a familiarity with digital imaging. Experience with Photoshop is preferable, but not essential. Students should bring some of their own images to work with.

This hands-on instructor-led Adobe Photoshop training course provides a comprehensive introduction to Photoshop Lightroom, Adobe's professional toolbox for image organisation, processing, and output.

### Objectives

After this Adobe Photoshop training course, delegates will cover:

- Effective use of catalogues, collections, keywords, and filters in the Library module
- Image correction and enhancement with the Develop module
- Publishing the results via the Slideshow, Print, and Web modules.

### Course Content

#### Introduction

- Working with RAW files
- Understanding the interface
- Importing and organising images
- Using import presets
- Using Auto import

#### The Library module

- Using the Navigator
- Understanding Grid View and Loupe View options

#### Library module: keywords

- Applying keywords
- Keyword stamping
- Importing keywords

#### Library module: organisation

- Using ratings and metadata
- Using Compare and Survey mode
- Using Collections

#### Develop Module: Using the Basic Panel

- Understanding the Histogram
- Correcting white balance
- Using the Tone controls
- Using the Vibrance and Saturation controls
- Creating and using virtual copies
