TRAINING

Visio

Duration: 1 day

Prerequisites

Delegates should have reasonable general PC skills

This Visio training course is designed to take delegates from learning basic Visio skills to a more in-depth understanding of the concepts behind creating technical drawings using Visio.

Through using Visio, you can easily create and enhance technical diagrams such as flow charts, network diagrams, maps and floor plans.

Objectives

This is a hands-on Visio training course where the morning session concentrates on learning basic and more advanced Visio skills. The afternoon session is then used to practice creating simple and more complex Visio drawings.

Course Content

Introduction to Visio

- Opening, closing, creating and saving a new Visio drawing
- Adding stencils, moving stencils and closing stencils
- Dragging shapes onto a drawing

Working with Shapes

- Using the drawing tools
- Selecting shapes
- Move, copy and delete shapes
- Interaction style, 2-D and 1-D shapes
- Working with handles, endpoints and vertices
- Formatting shapes
- Aligning and distributing shapes
- Grouping shapes
- Working with smart shapes

Working with Connectors and Glue

- Adding and deleting connectors
- Connecting shapes using connector tool, other 1-D shapes and the connect shapes icon
- Working with dynamic and static glue
