TRAINING

Photoshop for Web Graphics

Duration: 2 days

Price: £445 + vat

Prerequisites

Silicon Beach Training recommends that all delegates familiarise themselves with the Photoshop interface before attending

In this Photoshop for Web Graphics training course, you will learn how Photoshop allows web designers to produce a wide variety of optimised graphics by manipulating and composing scanned or drawn images, using powerful layering and masking techniques and a wealth of special effect filters.

Learn how to create and optimise your images for the web.

Objectives

After this Photoshop for Web Graphics training course, delegates will be able to:

- Create and optimise images for the web
- Work effectively and flexibly with Photoshop tools to create stylish web graphics
- Use filters and layer effects both as tools and effects
- Export from Photoshop using the most appropriate file formats for the web
- Develop Photoshop skills further using the in depth knowledge gained during this course
