

Details

Duration: 1 Day

Who is this course for

The course is suitable for amateur and professional photographers who want to practice new approaches and have some creative fun with their camera.

Street Photography Workshop

Street Photography Workshop run by award winning photographer Heather Buckley.

Learn how to identify great photographic opportunities wherever you are.

Objective

Having completed this Street Photography Workshop course participants will be able to:

- Enjoy experimenting with new ideas
- Leave with simple concepts that they can apply to all of their photography
- Recognise good image opportunities in everyday life
- Enthuse new photographers and re-enthuse practising photographers

Testimonials

The course was extremely well prepared, Heather is very knowledgeable, the theory was outlined in the class supported by actual photos, and then demonstrated in the field. We all were given individual attention by Heather, and the day was finished by analysis of our photos and retouching them. Thoroughly enjoyed the day. Definitely recommended for anyone interested in or wanting to improve their street photography skills. Thank you Heather for such a wonderful day, and for passing on your knowledge and tricks. The course was really good and I enjoyed it tremendously.

Anthony Campbell - Photographer

Onsite Training

Course Content

Presentation at Silicon Beach Training

- We start the day by looking at the work of great street photographers
- We discuss the common themes and ideas behind images that work
- You will be given your assignment for the day

Next we Hit the Streets Starting the North Laines Area of Brighton

- Start putting these principals into practice
- Heather will have a planned schedule so that everyone gets some one-to-one tuition, either in the morning or afternoon

Lunch (not included) Together in a Local Restaurant

- We will meet for lunch together
- A table will be booked in advance at a nice reasonably priced restaurant

More Practical Shooting at the Sea Front Around the Pier

- Time will be allocated to all remaining participants
- Make your way back to Silicon Beach Training

Review and Critique

- Back at the training rooms, we will review some of the images
- We will discuss some processing ideas using Lightroom
