Registered PRINCE2® Practitioners now have the opportunity to complete an additional qualification with the established and reputable Silicon Beach Training, in a shorter, and consequently more practical manner - through achieving the APMP: The APM Project Management Qualification. Fully accredited by the Association for Project Managers (APM) and internationally recognised, the APM Project Management Qualification (APMPMQ) allows candidates to improve upon their grounded PRINCE2® knowledge, developing an understanding of critical management concepts including cost management and budgeting, cohesive teamwork, and conflict management. The 5-day course offers the opportunity for PRINCE2® Practitionersto crucially save money and time, whilst becoming leading project managers in their respective business fields.

What will I learn on this course?

Complimenting a candidate's pre-existing PRINCE2® knowledge, the fast-track 4-day **APMP course** educates candidates to give them the skills to deliver successful projects through an effective proven formula - addressing various concepts from proposing and initiating a project, right through to finishing a successful project and quality assurance. The course is delivered by Certified APM PMQ Experienced Project Management Experts, through a mixture of instructor-led training and practical exercises that are integrated and pre-designed to relate to a work-related scenario. The course content can be fully tailored to suit your requirements in order to develop your transferable skills and applicability to your real-life work situation.

Why should I take the APMP for PRINCE2 Practitioners Course?

Guaranteed to offer the lowest price in the industry for APMP, our training course has been developed by utilising feedback to innovate our teaching methods - we teach the way that is best for you. Whilst learning how to successfully manage and deliver projects, the fast-track APMP for PRINCE2® Practitioners, elevates a candidate’s earning potential to £40-85k.

Generated from and grounded by the APM Body of Knowledge 6th Edition, the syllabus consists of a newly revised 2-hour examination layout assessing knowledge of APM’s 73 assessment criteria, conducted the final day of the 5-day course. Specifically, the exam includes the completion of 6 questions, out of a choice of 10, with a 55% pass rate - which is the same as the longer, more time-consuming normal APMP route.

What's included?

Silicon Beach’s APMP for PRINCE2® Practitioner Training Course includes:

- The Official APMP Course Material
- Examination Fee
- Certificates
- Tuition from an accredited and highly experienced instructor

Designed and beneficial for Project Managers, Team Managers, and Project Support members, the APMP for PRINCE2® demonstrates how to use your acquired knowledge to utilise critical path analysis techniques to manage resources effectively whilst preempting potential conflicts before they arise. The **APMP Course** helps candidates identify the diverse roles assumed by a successful project manager throughout a project's life-cycle, varying from the starting proposal process, when defining the project's intentions, monitoring success and learning, and when assessing a project's success.

The following topics will be taught during the APMP: The APM Project Management Qualification:

- Structure of organisations and projects.
- Project life cycle.
- Project contexts and environments.
- Governance and structured methodologies.
- Communication.
- Leadership and teamwork.
- Schedule and resource management.
- Procurement.

Registered PRINCE2® Practitioners now have the opportunity to complete an additional qualification with the established and reputable Silicon Beach Training, in a shorter, and consequently more practical manner - through achieving the APMP: The APM Project Management Qualification.
