

What is Time Management Training?

This Time Management training course is designed to help participants develop their skills in time management to achieve more effective results in less time.

One of the most repeated phrases you will hear in offices up and down the country is "we don't have enough time" - to which the response is often "work harder!" - leading to overtime, stress - and often a poorly done job! Developing techniques to make more intelligent use of time, and to prioritise and effectively manage a challenging workload can lead to a more productive workforce getting more important work done in less time and with less stress!

What are the objectives of Time Management Training?

By the end of this time management training course, you will be able to:

- Identify your own particular time wasters and adopt strategies for reducing them.
- Recognise the variety of causes of procrastination and apply relevant techniques to overcome these.
- Clarify and prioritise your objectives and goals, by creating more planning time.
- Adopt appropriate strategies for dealing with interruptions and anything else which 'steals' your time.
- Use practical techniques for organising work.
- Reduce time spent in meetings yet contribute more effectively.
- Define assertiveness and related types of behaviour
- Choose assertive responses to different time management situations
