Enhance your skills and ability within the IT industry and computer based knowledge with this CompTIA A+ course.

What is the CompTIA A+ Certification training course?

CompTIA A+ Certification training is a great starting course for anyone interesting in acquiring a globally recognised qualification that demonstrates ability surrounding PC maintenance, operating systems, mobile devices, peripherals and other computer based technology. CompTIA A+ is all about demonstrating your ability and knowledge around the key computer hardware and software components. The CompTIA A+ training course has been running since 1993, and aims to validate the skills of IT technicians in order to help them progress within the field. The training takes place over 5 days and consists of much practical activities using computers and hardware.

What are the objectives of the CompTIA A+ training course?

On completion of the CompTIA A+ course and exam delegates will have:

A globally recognised qualification in the IT industry

The experience and confidence to work with computer hardware

A higher average salary than professionals in the industry without the certification

Who is the CompTIA A+ training course for?

The certification is useful for anyone who might want to become a computer technician or anyone looking to enhance their IT career. There are no formal requirements, however, basic Windows computing knowledge may be helpful.

Why is the CompTIA A+ a desirable training course?

The CompTIA A+ qualification is desired by employers because it is a valuable in beginning a career in computing. Candidates are taught how to deal with the most challenging of problems that they may encounter, hence CompTIA A+ provides them with much relevant knowledge. Those who have the CompTIA A+ certification tend to stand out in the marketplace, and are likely to earn more than those who do not possess the qualification.

How are CompTIA A+ candidates assessed?

To become CompTIA A+ qualified you will need to pass two exams.

The first exam is the CompTIA A+ 220-801.

This exam will primarily test your knowledge on computer technology and setting up a PC as well as some basic networking knowledge. This exam lasts for a total of 90 minutes and is a multiple choice paper with a pass mark of 675/900.
