

CompTIA A+ Certification

Enhance your skills and ability within the IT industry and computer based knowledge with this CompTIA A+ course.

CompTIA A+ certification lasts for a total of 4 days and is a great starting course for anyone to gain a globally recognised qualification that demonstrates your ability around PC maintenance, operating systems, mobile devices, peripherals and other computer based technology.

CompTIA A+ is all about demonstrating your ability and knowledge around the key computer hardware and software components. The certification is useful for anyone who might want to become a computer technician or anyone looking to enhance their IT career.

Objective

On completion of the CompTIA A+ course and exam delegates will have:

A globally recognised qualification in the IT industry

The experience and confidence to work with computer hardware

A higher average salary than professionals in the industry without the certification

Details
