

IOSH Introduction to Risk Assessment Training

Don't compromise health and safety at work, make sure you can effectively carry out complete risk assessments that meet the high standards of the Institution of Occupational Safety and Health (IOSH).

Our 1-day Risk Assessment training course will not only provide you with the knowledge to perform risk assessments but will also prepare you for a short test at the end of the day, resulting in an IOSH Risk Assessment Certificate.

Objective

At the end of this IOSH Introduction to Risk Assessment Training course you will be able to:

- Demonstrate an understanding of employers' and employees' responsibilities under the Management of Health & Safety at Work Regulations
- Carry out the risk assessment process by recognising and quantifying common hazards in the workplace.
- Conduct and complete a risk assessment in the workplace
- Complete a short assessment which leads to an IOSH Risk Assessment certificate

Details
