What is Database Fundamentals (M40364A)?

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-364, and build an understanding of these topics: Core Database Concepts, Creating Database Objects, Manipulating Data, Data Storage, and Administering a Database. This Microsoft training course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Who is Database Fundamentals (M40364A) intended for?

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Course Objectives

On completion of this training course, candidates will be able to:

- Understand Core Database Concepts
- Create Database Objects
- Manipulate Data
- Understand Data Storage
- Administer a Database

Module 1: Understanding Core Database Concepts

Module 2: Creating Database Objects
