

What is Windows Server Networking Fundamentals (M40366)?

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-366, and build an understanding of these topics: Network Infrastructures, Network Hardware, and Protocols and Services. This training course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Who is Windows Server Networking Fundamentals (M40366) intended for?

The Microsoft Technology Associate (MTA) is a new [Microsoft certification](#) exam that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

There are no prerequisites for this course.

What are the objectives of Windows Server Networking Fundamentals (M40366)?

After completing this training course, students will be able to:

- Understand Network Infrastructures
- Understand Network Hardware
- Understand Protocols and Services

Course Outline
Module 1: Understanding Local Area Networking

Module 2: Defining Networks with the OSI Model

Module 3: Understanding Wired and Wireless Networks

Module 4: Understanding Internet Protocol

Module 5: Implementing TCP/IP in the Command Line

Module 6: Working with Networking Services

Module 7: Understanding Wide Area Networks

Module 8: Defining Network Infrastructures and Network Security
