

What is Android App Training?

Learn to create Android apps on our hands-on workshop with guidance from a professional developer.

During our **3-day Android App training course**, you'll create at least one app and release it to the Android Play Store marketplace by the end of the week.

This [mobile development training course](#) will teach you how to make the best of the open Java platform by working with an emulator and deploying to real devices.

What are the objectives of Android App Training?
