What is MOP® Practitioner Conversion Training?

This MoP® Practitioner Conversion training course is for individuals wishing to upgrade their Foundation-level qualification - learning how to apply their acquired knowledge to Portfolio Management and high-level strategic decision making. This MoP® Practitioner training course is for individuals that are looking to improve upon their Portfolio Management attributes and skills - utilising a practising, cultural, and strategic change. This MoP® Certification will develop skills that help candidates make well-informed decisions when applying, guiding, tailoring, and transforming Portfolio data, practices, and documentation. Candidates will learn how to initiate the implementation of Portfolio changes in a variety of live contexts - through small interactive exercises that promote transferable knowledge.

Undertaking this training course will develop a candidate's awareness of how to successfully deliver punctual, quality abundant, and cost-effective projects and decisions, through optimising communication channels between senior management staff, stakeholders, and team contributors. MoP® enables businesses to make large scale decisions and business changes from a Top-Down perspective, rather than implementing long-term micro-projects, hence this course will help authoritative individuals make informed fundamental changes with business value and financial viability at the forefront.

Who is MOP® Practitioner Conversion Training intended for?

- Portfolio Managers
- Management Board Members
- Senior Responsible Owners
- Portfolio Office Contributors
