

M_o_R® Practitioner Training

This is a two-day course leading to the M_o_R® Practitioner exam on the second day. This M_o_R® Practitioner training course will enhance the delegate's knowledge on M_o_R, building on from what the delegate has learnt from the [M_o_R® Foundation Training Course](#). This will include the terminology used, and also gain an understanding the principles of the development of risk management practices.

Objective

The key objectives of this course are:

- Provide Delegates with an understanding of the benefits and principles underlying a structured approach to the assessment and management of risks
- Apply the principles of M_o_R® within a work environment
- Communicate effectively with colleagues and managers within a structured risk environment
- Enable delegates to understand the M_o_R® method at the Foundation and the Practitioner levels
