What is the MoV Practitioner Course?

By the end of this MoV® Practitioner training course, individuals will learn how to implement MoV® principles to a variety of business situations, including developing an appropriate plan of MoV® activities and following the MoV® process throughout a project's life-cycle. This training course follows up the MoV® Foundation Course.

Management of Value (MoV®) is a framework that provides businesses with a valuable set of principles and techniques to enhance benefits from portfolios, programmes, and projects, to ultimately enhance business value and ensure an unparalleled quality of delivery. Hence, having qualified MoV® Practitioners in a business is beneficial when attempting to elevate quantifiable and measurable business value.

What are the MoV Practitioner Course Objectives?

By the end of the training course delegates will be able to:

- Understand a proven methodology which is made up of an individual array of principles, processes and techniques
- Clarify an organisations objectives and value their priorities
- Apply the MoV methodology to an operational environment
- Tailor and implement MoV within an organisation

Who is the MoV Practitioner Course for?

- Management Staff Wishing to Utilise Management of Value (MOV®) principles
- Senior management
- Project and Programme Managers
- Change Initiators and Managers
- Project Office Staff and MoV® contributors

Why should I take the MoV Practitioner Course?

The MoV® Practitioner Certification Course helps candidates to deliver quality-abundant, financially profitable, and beneficial projects with an emphasis on elevating business value, engaging stakeholders, and ensuring client satisfaction - enabling efficient project delivery.

Pre-Course Reading

The training course includes 15 hours of pre-course work. This includes reading chapters One (Introduction) and Two (Principles) of the MoV guide at least twice and highlighting areas where appropriate. You should also try and gain an understanding of the structure of the MoV guide, including the glossary. There will also be evening work throughout the course.
