

## MSP® Foundation Training

Gain a comprehensive understanding of programme management and prepare for the MSP® Foundation Exam with MSP® Foundation training. The training course covers the first three days of our 5 day MSP® Practitioner course.

### Objective

After attending MSP® Foundation training course, you will be able to:

- Recognise the ways that MSP addresses the factors which enable successful programmes
- Apply the main MSP principles to programme management
- Identify key pieces of programme information
- Define and apply governance strategies
- Tailor MSP to your own business environment
- Scale MSP for different programmes
- Undertake risk analysis and management
- Confidently sit the MSP Foundation exam

### Details

**Duration:** 3 Days

### Who is this course for

This training course is aimed at new Programme Managers and Project Managers looking to enhance and develop their skillset.

Before attending our MSP Training course delegates will need to have a good understanding of Projects and Programmes and have completed the pre-course reading that we send out 3 weeks prior to the training.

## Course Content

### MSP® Introduction and Overview

- Drivers for change
- The need to focus on benefits
- Critical success factors
- Programme management
- Transformational flow

### MSP® Programme Management Themes

Defining and discussing the basic MSP principles that underpin the definition, governance and delivery of a programme. Including:-

- Organisation and leadership
- Benefits Management
- Leadership and Stakeholder Engagement
- Blueprint Design and Delivery
- Risk and Issue Management
- Quality and Assurance Management
- Business Case Management
- Vision
- Programme Planning and Control

### The Transformational Flow

Describing the programme life-cycle and the typical governance activities, responsibilities and information requirements for each flow element from identifying and defining a programme through managing the tranches, and the eventual closure of the programme.

### MSP Case Studies

A realistic case study scenario is used throughout the MSP Foundation course to allow delegates to consolidate their knowledge of MSP in a practical setting through syndicate work.
