What is MSP® Re-registration training?

This 2-day accredited MSP® Re-registration Certification training course is led by licensed Project & Programme Managers who are there to ensure that you have the best possible preparation prior to sitting the MSP® Re-registration Certification exam, whilst encouraging the acquisition of longitudinal refresher knowledge. Whilst attaining the required accreditation in accordance with MSP® Training regulations, the Re-registration Training course enables the revision of knowledge previously acquired during an MSP® Practitioner course, in addition to improving upon any limited knowledge areas or weaknesses. Candidates will be given ample opportunities to rehearse MSP® sample exam questions with valuable feedback from their experienced instructor - elevating the chances of succeeding in the exam.

This re-registration training course is essential for MSP® Practitioners coming to the end of their 3-5 year registration period that wish to keep their qualification up to date for the next 5 years.

How are candidates assessed?

For MSP® Re-registration, candidates must obtain a 50% pass mark in the examination taken at the conclusion of the second day, consisting of:

- Three 10-mark questions
- Open-Book Examination
- 1 hour 15 min Exam

What's Included?

- The MSP® Registration Coursework Book
- Official guide to MSP® Managing Successful Programmes 4th Edition
- Pre-Course Reading Material
- Examination
- Certificate
- Tuition from an experienced and licensed Project & Programme Manager
- Refreshments

Course Objectives

This accredited MSP® Re-registration Certification course enables the revision of Project Management knowledge previously acquired, and meets the re-registration MSP® requirements - keeping accreditation whilst assuring that knowledge is up to date with the ever-developing MSP® methods.

The course will revisit topics that have been studied previously by MSP® Practitioners, including:

- Understanding of MSP® Principles and how to tailor them to your project or programme
- Engagement of stakeholders
- Risk Management
- Governance Themes
- Benefit Realisation Management
- Transition Preparation
- Delivering Capability
- Management of Complex Adaptations

This MSP® Re-registration Certification Course is essential for MSP® Practitioners coming to the end of their 3-5 year registration period that wish to keep their accreditation up to date for the next 5 years.
