What is P3O?

Gain your P3O® certification with our training courses and learn the industry best practice approach to Portfolios, Programmes and Project Offices.

P3O® (Project, Programme and Project Office) is a framework enabling businesses to set up and maintain a support structure for the delivery of change within their organisation. Provided by the global best practice provider AXELOS, P3O® links easily with other AXELOS best practice frameworks such as PRINCE2®, MSP® and M_o_R® because its guidance helps to support and maintain each of the areas these frameworks cover. It helps to align these areas of interest with the business's objectives, ensuring senior management are able to make informed decisions about how these components of the business can fit in with the overall strategy.

This P3O® Foundation & Practitioner Certificate is designed for individuals that want to learn the fundamentals of the P3O® framework and then elevate this knowledge to be able to apply its concepts. Led by highly experienced and accredited instructors, the course will consist of a mixture of practical exercises and instructor led seminar-based sessions - ensuring that candidates gain applicable and underpinning conceptual knowledge. The P3O® Foundation & Practitioner Training Course will allow individuals to analyse, distinguish, and review the success or failure of Projects, with a full appreciation of differing principles and varying roles that contribute to a successful P3O® Project.

Whilst providing an effective framework for repeat usage, P3O® Training is primarily designed to develop proficient Project Managers and Project Contributors that are capable of initiating and leading transformational business change. The P3O® guidance brings about a collaboration of principles, foundations, processes, and techniques to contribute and facilitate Portfolio, Programme, and Project Management - in order to provide a set framework in which to adhere to on regular basis to assure consistency and effective Project Management. The Portfolio, Programme, and Project Officers (P3O®) scheme offers guidance on optimising investment whilst not inhibiting or influencing alternative business operations - hence this course is of value for businesses utilising the P3O® Guidance and developing capable Project Managers.

What are the P3O Foundation & Practitioner Course Objectives?

The training course has a duration of 5 days, with the first two days covering P3O at Foundation level. The following three days are spent training for the P3O Practitioner exam. By the end of the course you should be able to:

- Understand the fundamentals of P3O
- Adapt the P3O models within a work environment, by carefully selecting case studies
- Understand the value that P3Os can bring to the organisation at the Practitioner level, including a business case, funding models, and performance measures
- Apply P3O tools and techniques at the Practitioner level

Who is the P3O Foundation & Practitioner course for?

Tel +44 20 4571 2395
info@siliconbeachtraining.co.uk
