Learn the fundamental knowledge you need to use the Primavera software with our training course.

What is Primavera P6 Professional Fundamentals for Project Managers?

This training course will show you how to effectively use the Primavera P6 Professional project management software and how to apply it to the project management lifecycle. The training course is made up of a workshop and demonstration to help you apply the knowledge gained during the training course. The Primavera software can help you understand and consider the 3 key parts of any project management lifecycle which are the cost, the resources involved and also the schedule. Primavera is a project management enterprise that provides tools for project managers to create and control projects from their outset until their completion. The duration of the Primavera P6 Professional Fundamentals for Project Managers training course is 3 days. Over these 3 days, 3 profound areas are covered - creation of the project, scheduling of the project, and project execution and control.

What are the objectives of the Primavera P6 Professional Fundamentals for Project Managers course?

By the end of this Primavera training course delegates will be able to:

- schedule projects
- assign resources correctly
- make adjustments to the schedule of the project
- control the project
- execute the project
- create a project from scratch
- construct tasks

Who is the Primavera P6 Professional Fundamentals for Project Managers course for?

This training course is suitable for anyone involved in project management, from the managers themselves to support staff. Primavera is particularly effective for any managers as the knowledge gained will assist them across the project lifecycle. This training course is also suitable for assistant managers and other project team members who have a good understanding of the project management principles. Although there are no formal requirements for the Primavera P6 Professional Fundamentals course, some knowledge of project management principles is recommended.

Will the Primavera P6 Professional Fundamentals for Project Managers course involve work outside of course hours?
