

This 2-day Six Sigma Yellow Belt training course provides candidates with an insightful understanding of the [Six Sigma](#) principles, so they can actively contribute to a Six Sigma team and provide support to Green and Black Belt holders. Led by highly experienced and accredited Six Sigma Instructors, the Six Sigma Yellow Belt Training course educates candidates on how to demonstrate knowledge of major business improvements through the reduction of waste, and enhancement of resource utilisation. Six Sigma Yellow Belt training course attendees will learn how to develop process maps to support productivity of Six Sigma projects, including amelioration projects utilising the Plan, Do, Check, Act process to identify potential improvement areas. During the Six Sigma Yellow Belt training course, candidates are educated on how to collect and monitor data on profit-consuming entities and practices, from an analytical but problem-solving perspective - gifting them the skills to become active cogs in feedback systems.

Possession of Six Sigma Belt certifications can elevate earning potential substantially towards £55-90k. Once Yellow Belt Certified, candidates will have the founding knowledge to progress to the next [Six Sigma Training](#) belt, the Six Sigma Green Belt.
