What is Dreamweaver Training?

In 1-day, learn how to use Dreamweaver to create web content from scratch and publish it online.

Our Dreamweaver training course covers planning, creating, editing, publishing and site management.

Our Dreamweaver Masterclass training course is taught by industry experts who will pass on their knowledge of the most up to date techniques used by professionals.

Use the diverse features of Dreamweaver to streamline your work process and create accessible, standards-compliant pages.

We also provide in-company **Dreamweaver courses.** Call +44 (0)1273 622272 to discuss.

Combine Dreamweaver training with Photoshop training for Web Graphics and Web Design training for a fantastic 1 week introduction to Web Design.

We recommend that you familiarise yourself with the Dreamweaver interface, or that of a similar package before attending the course. Download the free trial version.
