What is HTML & CSS Training?

Our 1-day HTML & CSS website design training course provides an introduction to web design for those with little or no experience. You will learn everything you need to know to start coding your own websites from scratch, enabling you to move on to our HTML5 and CSS3 course.

HTML5 & CSS3 is the perfect follow on to this training course, enhancing your skills by teaching you the more advanced and creative elements of web design.

If you're new to web programming, learning HTML & CSS is undoubtedly the place you should start.

We also provide private and in-company **HTML & CSS courses**. Call us on +44 (0)1273 622272 to discuss.

Course Objectives

By the end of this HTML & CSS training course, you will be able to:

- Create and validate web pages according to HTML standards
- Create W3C validated CSS stylesheets
- Use CSS and HTML to build websites from scratch using code
- Start to learn about HTML5 & CSS3 - the latest standard in web development
