

Joomla Training

A practical introductory Joomla training course providing real-world advice and guidance in building and administering a Joomla! Content Management System Site.

During this 1-day Joomla training course, participants will become familiar with the basic content and features of Joomla! 1.5 and work towards creating a fully functional demo site.

Objective

By the end of this 1-day Joomla training course, participants will be able to:

- Navigate the basic content and features of Joomla
- Create a fully functional demo site
- Manage an existing Joomla site
